PROFILE

I'm currently the Head of Neural Systems at an IT company, with six years of experience in IT. Driven by a passion for growth, I recently expanded my skillset to include website development using HTML, CSS, JavaScript, React and Node.js. I'm excited to apply my new skills to create engaging, responsive web applications and look forward to exploring new opportunities that combine my leadership and development expertise.

WORK EXPERIENCE

July 2019 - Present
Imperia Holding, Kyiv
Head of Neural system

- Directing and managing a team of approximately 100 individuals, providing guidance, support, and mentorship to ensure team cohesion and productivity.
- Overseeing the administration system, including tasks such as adding new information, testing the system, and providing suggestions for software development.
- Conducting audits to ensure task completion compliance from the client side.
- Leading the creation of datasets for neural networks, overseeing training, and verifying finished datasets
- Generating reports evaluating the quality of neural network performance.
- Actively participating in the development and implementation of proposals for application modernization.

EDUCATION

2018 – 2020

- Git & GitHub
- Vite.js
- Figma
- Node.js

SOFT SKILLS

- Customer focus
- Teamwork
- Decisive
- Confident
- Leadership
- Cheerful
- Hardworking

PROJECT EXPERIENCE

- **Read Journey, code link**

[HTML, CSS, React, Redux, Typescript, Axios]

Read Journey is an app designed to help you manage your book library, track your reading progress, and discover recommended books. With both statistical and diary-like views, it provides a seamless reading experience, supporting you throughout your reading journey.

- **Online Language Tutoring Platform, code link**

[HTML, CSS, React, Redux, FireBase, Axios]

An interactive web application that connects students with professional language tutors from around the world.

- **Money Guard, code link**

[HTML, CSS, React, Redux, Vite.js, Vercel, Monobank API]

An intuitive and secure financial dashboard that helps users manage their income and expenses with ease. Track transactions, view real-time currency rates, and gain control of your finances – all in one place.

- **Filmoteka, code link**

[HTML, CSS, React, Redux, Vercel, Vite.js]

A user-friendly movie library where you can search for films, view details, and add favorites to your collection.

- **Green Harvest, code link**

[HTML, CSS, JS]

A site dedicated to promoting healthy eating. It was a rewarding experience working on this project, and I'm thrilled to present it to you.

- **Yach Jet, code link**

[HTML, CSS, JS, Vite]

As the Team Lead, I was at the helm of the technical development, guiding the team through the complexities of the project. The role required a deep understanding of cutting-edge technologies and the ability to seamlessly integrate them into a cohesive and innovative solution.

- **Simply Chocolate, code link**

[HTML, CSS, JS, Vite]

It's been a rewarding experience designing and developing this site from scratch, and I'm proud of how it turned out.
